

# School Discount Guideline

NNREC recognizes the synergy that results when multiple people from one school receive the same professional development experience, and then work together to implement the curriculum and approach at their school. Therefore, we provide significant discounts when a learning team from a school attends, including all instructional and administrative staff. Teachers from other schools, and community partners, may participate in your learning group if you are *already* working with them on an environmental education project (we will require some documentation for these other partners).

In order to receive these discounts, your learning group must register by the early registration deadline (which is generally one month before the workshop), must register together as a single group and provide all names (no to-be-determined people), and must register and pay online with PayPal.

The discount is:

2nd person	10% off
3rd person	20% off
4th person	30% off
5th person	40% off
6th person	50% off
7th person	60% off
8th person	70% off
9th person	80% off
10th person	90% off
11th person and beyond	- free
