

Funding Model for Partner Agencies

The Nevada Natural Resource Education Council (NNREC) has developed a funding model for an NNREC Executive Director position, and for an active schedule of 'projects' workshops and summer workshops. The Executive Director will provide coordination and leadership for environmental and natural resource education at the state level, in particular working with all the partners to develop better coordinated professional development training that is aligned with state education standards. NNREC would identify and work to fulfill the common elements of the partner's missions, including the academic and civic engagement mission of schools. NNREC would seek additional funding from foundations, individual donations, government grants, and membership dues to supplement the contributions from partner agencies.

This document is an internal working draft for NNREC.

Nevada Division of Environmental Protection (NDEP)

summer workshops	\$1000
NNREC Executive Director	\$2000
Project WET workshops	\$8000 in-kind

Nevada Division of Forestry (NDF)

summer workshops	\$3000
high school programs	\$4000
PLT workshops	\$2000
NNREC Executive Director	\$2000
